BUSINESS INSIGHTS

The screenshot displays the MAS 90 Business Insights software interface. The main window shows a dashboard for 'ABC Distribution and Service Corp.' with several key reports and charts:

- Income and Balance Sheet:** A table showing financial data for the current and prior periods.
- Sales by Product Line:** A pie chart showing the distribution of sales across different product lines.
- Cash Flow Predictions:** A bar chart showing expected and required cash flow over time.
- Key Ratios:** A table of various financial ratios such as Solvency Ratios, Operational Efficiency Ratios, Leverage Ratios, and Profitability Ratios.
- AR Analysis:** A bar chart showing Accounts Receivable (AR) analysis as of May 31, 2003, categorized by aging periods.

The interface includes a navigation menu on the left and a top toolbar with options like File, Modules, View, Help, Security, Utilities, Repair, Common, and Business Insights.

If you are a busy manager or business owner who needs quick access to key business information in a format that is easy to read and understand, Business Insights for MAS 90 and MAS 200 is the ideal solution. Designed to provide the data you need to make critical decisions, Business Insights presents information in a high-level, attractive graphical format that allows you to instantly ascertain the state of your business. FEATURES:

Customizable Start Page Configuration

A wizard makes it easy to customize your start page and select the reports you want to see. For example, variable pie chart graphs and their table elements can display sales for your top five, 10 or 20 customers, depending on what is most appropriate for your company.

Easy Access to Information

View your information within the MAS 90 or MAS 200 Launcher or access it directly with Internet Explorer.

Extensive Drill-Down Capabilities

You have the option to drill down into selected MAS 90 or MAS 200 reports and inquiries to display additional information.

Attractive Text and Graphical Data Displays

The easy-to-read information display uses a combination of visually effective text and graphics in an attractive, contemporary design.

Automatic Data Refreshing

Data is automatically refreshed through a polling process that takes place in the background. This ensures the display of up-to-date information without having to take the time and effort to manually refresh data. You have the ability to refresh when launching Business Insights, or you may specify a time value for automatic data refreshing.
