

FAS™

FAS is the only solution needed to manage your fixed assets—and the #1 fixed asset management solution in the marketplace.

It's an unfortunate reality that many companies overpay thousands (some even millions) of dollars in taxes and insurance due to improperly or ineffectively managing and depreciating their fixed assets.

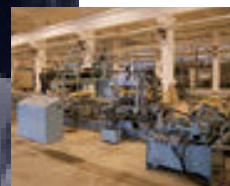

One solution is chosen by businesses 3-to-1 over all other competing software options combined: FAS.

With FAS, you get total command over the entire fixed asset lifecycle—from start to finish. Everything you need comes in one powerful, flexible, affordable package. FAS is the definitive IRS tax and GAAP rule expert, giving you:

- An intuitive interface that's easy to implement, learn, and use
- Seamless integration among the accounting, inventory, and reporting applications
- Direct links to your general ledger system
- Comprehensive, easy-to-use, reporting features

"This latest version of the most widely used fixed asset software does not disappoint and reinforces why FAS Asset Accounting is consistently a top-seller. Jam-packed with features, this product addresses just about every fixed asset scenario imaginable."

— Accounting Technology

FAS™

Answers to your questions (and much more) are just a call or click away.

FAS SupportPlus® members benefit from an unmatched level of customer support. You can call our friendly experts for help anytime Monday through Friday, from 8AM to 8PM EST. Or use SupportPlus Online™ to get answers and chat with other users 24 hours a day, 7 days a week.

What's more, SupportPlus users can also download software upgrades, access multimedia tutorials and take advantage of exclusive discounts on new products.

You can be confident choosing FAS.

For almost 20 years, FAS has been the market leader in fixed asset management software with over 100,000 users nationwide. Users trust FAS solutions to handle even the most complex fixed asset management needs of their businesses.

Our record of success gives you the absolute security of knowing your fixed assets will be managed with speed and accuracy, whether you're part of a centralized or dispersed corporation.

**FAS Suite:
three integrated applications.
One powerful solution.**

FAS Asset Accounting™ - Delivers advanced fixed asset accounting, depreciation and reporting for any business needing effective asset management tools in integrated accounting environments. Simply stated, this software conveniently manages assets throughout their entire lifecycle—from acquisition to disposal.

FAS Asset Inventory™ - Gives you unparalleled asset inventory tracking and reconciliation capabilities. FAS Asset Inventory uses state-of-the-art bar code technology—including Windows® CE and Palm OS® bar code devices—which creates and tracks physical inventories quickly and accurately. The result? You enjoy tighter control over your fixed assets.

FAS Report Writer™ - Generate accurate, complete, customized reports that present fixed asset data however best suits your company. FAS Report Writer also supports multiple formats for easy import/export of data. Finally, the easy-to-use report wizards make customizing your reports simple.

FAS Suite is a comprehensive, seamlessly integrated fixed asset management solution perfectly suited for businesses of any size, including those requiring the power of a Microsoft® SQL Server infrastructure.

FAS FirstStep™: the perfect solution for businesses managing fewer than 1,000 assets.

Designed for small businesses, FAS FirstStep is the perfect solution for first-time buyers of fixed asset management software. FAS FirstStep organizes fixed assets in an easy-to-view format, performs complex depreciation calculations quickly and easily, and offers more than 20 pre-defined reports for financial and tax reporting of up to 1,000 assets.

FAS™

“FAS has an intuitive interface, quick data entry, many options and holds lots of detailed data.”
