Peachtree is an excellent product for small businesses that are just getting started. However, as your business grows, your accounting needs change. We at Best Software understand the challenge of evolving with growth, which is why we offer a straightforward migration path from MAS 90 and MAS 200 product lines to the next level of functionality. Making a change from software that you are comfortable with is seldom easy. To help make the conversion process fast and simple, Best has designed the Data Migration program to assist Peachtree customers in a painless change to Best's Peachtree Special Edition of MAS 90 software. Enjoy all the benefits of increased functionality, customization capabilities, and flexible reporting without the need to re-key your important information. The Data Migration program can save you valuable time and resources in today's fast-paced business environment.

Our nationwide network of qualified Peachtree → MAS 90 Conversion Specialists has the exclusive rights to our special data migration tool. Specialists can quickly accomplish data conversion to MAS 90 and MAS 200 from version 7, 8 and 9 of Peachtree Complete Accounting for Windows. (If you are on earlier versions of Peachtree, ask your MAS 90 and MAS 200 Conversion Specialist about special procedures that allow you to take advantage of this program.) Not only can our Conversion Specialists demonstrate the flexible, intuitive and customizable features available in Peachtree Special Edition of MAS 90, they can also minimize the time it takes to convert your data and make it operational on your new Peachtree Special Edition of MAS 90 system. Your data will be up and running on your new system in virtually no time.
